

Instructions for Students with COVID-19 Symptoms

■ Target Students

- **Students who do not go to school but stay at home** as they show symptoms after self-assessment
- **Students who return home as a result of screening** after they visit the screening center

■ Things to Comply With

[Going Home]

- Wear a mask (including KF94, KF80, and anti-droplet) and do not engage in physical contact with others

- Go straight home after leaving the screening center and **do not stop to visit any place (PC cafe, convenience store, billiard hall, karaoke room, cafe, etc.)**.

- Do not use public transport

(However, if you have to travel a long distance or do not have any other means of transport, you must wear a mask when using public transport)

[At Home]

- **Do not go outside.**

- **Follow the instructions below while staying at home.**

- Check your health twice daily

* If your symptoms do not improve or worsen, contact your school or 1339 and follow their instructions.

- Stay in a place where you can be alone.

- Open windows for frequent ventilation with the door closed.

- Use a bathroom with a sink you can use alone.

* If you use a shared bathroom, disinfect with disinfectant (disinfecting wipe, household bleach, etc.) before letting others use the bathroom.

- Use your own towels and dishware.

- **Practice personal hygiene.**

- Use water and soap or hand sanitizer to frequently wash your hands.

- Wear a mask and practice cough etiquette.

* Cough into your sleeve and wash your hands immediately after you cough or sneeze.
